Intermediate Mathematical Challenge

On the 4 February 2010 forty-eight of our finest maths students took part in the above maths challenge offered by the United Kingdom Mathematics Trust.

We were extremely delighted with the results as out of forty-eight students that took part thirty-four qualified for gold, silver and bronze certificates and five are advancing to the next stage of the maths challenge known as The European Kangaroo Challenge.

As a maths department and indeed school, we are extremely proud of these children who are getting certificates and are overjoyed at the four children who have essentially achieved beyond our expectations and in two weeks time will be undertaking the European Kangaroo Challenge on Thursday 18 March 2010.

Gold Certificate winners:
