15 March 2022

Dear Mr Patterson

I write to update you on the redevelopment programme that is soon to begin its construction phase at Hinchingbrooke Hospital. As Hinchingbrooke School is situated close to our site, it is important that we keep you up to date on the works which will see the creation of a new operating theatres block and structural improvements made to the existing hospital building. The work will provide new facilities for patients and support their improved care and experience.

Construction is due to start at the end of March and last approximately 12-15 months. You will notice that construction traffic will be using the approach road to our hospital. We wanted to make you aware of this and are committed to keeping you posted on any particular stages of the development which may result in an increase in construction traffic which has the potential to cause disruption – although we do not foresee any at present.

We are working closely with contractors to minimise any adverse impact, to our site users as well as our neighbours.

Thank you in advance for your support. Please do not hesitate to get in touch with Lisa Normanton, Communications and Clinical Engagement Manager, on 01480 416269 should you have any concerns or questions.

Yours sincerely

Caroline Walker
