

In 2025, the theme for Pride Month is 'Activism and Social Change'

Recognising the long history of LGBTQ+ activism and its impact on society

Raising awareness for the continued need for LGBTQ+ activism and advocacy to address ongoing challenges and inequalities

Acknowledging that activism takes place in many forms, including protests, campaigns, art, education and more, all over the world

This theme highlights the contributions LGBTQ+ individuals throughout history in driving social change and advocating for a more inclusive world
