

Happy Pride Month HBK

June 2026

Pride Month is about reflecting on how things have improved and reminds us why treating everyone with respect is so important.

Pride Month is a time to celebrate diversity, inclusion and the freedom to be yourself.

Be proud. Be respectful. Be you.

It takes place in June to remember the 1969 Stonewall uprising in New York, when LGBTQ+ people stood up against unfair treatment and discrimination. Those events became an important turning point in the fight for equal rights around the world
